

Samrat Ojha

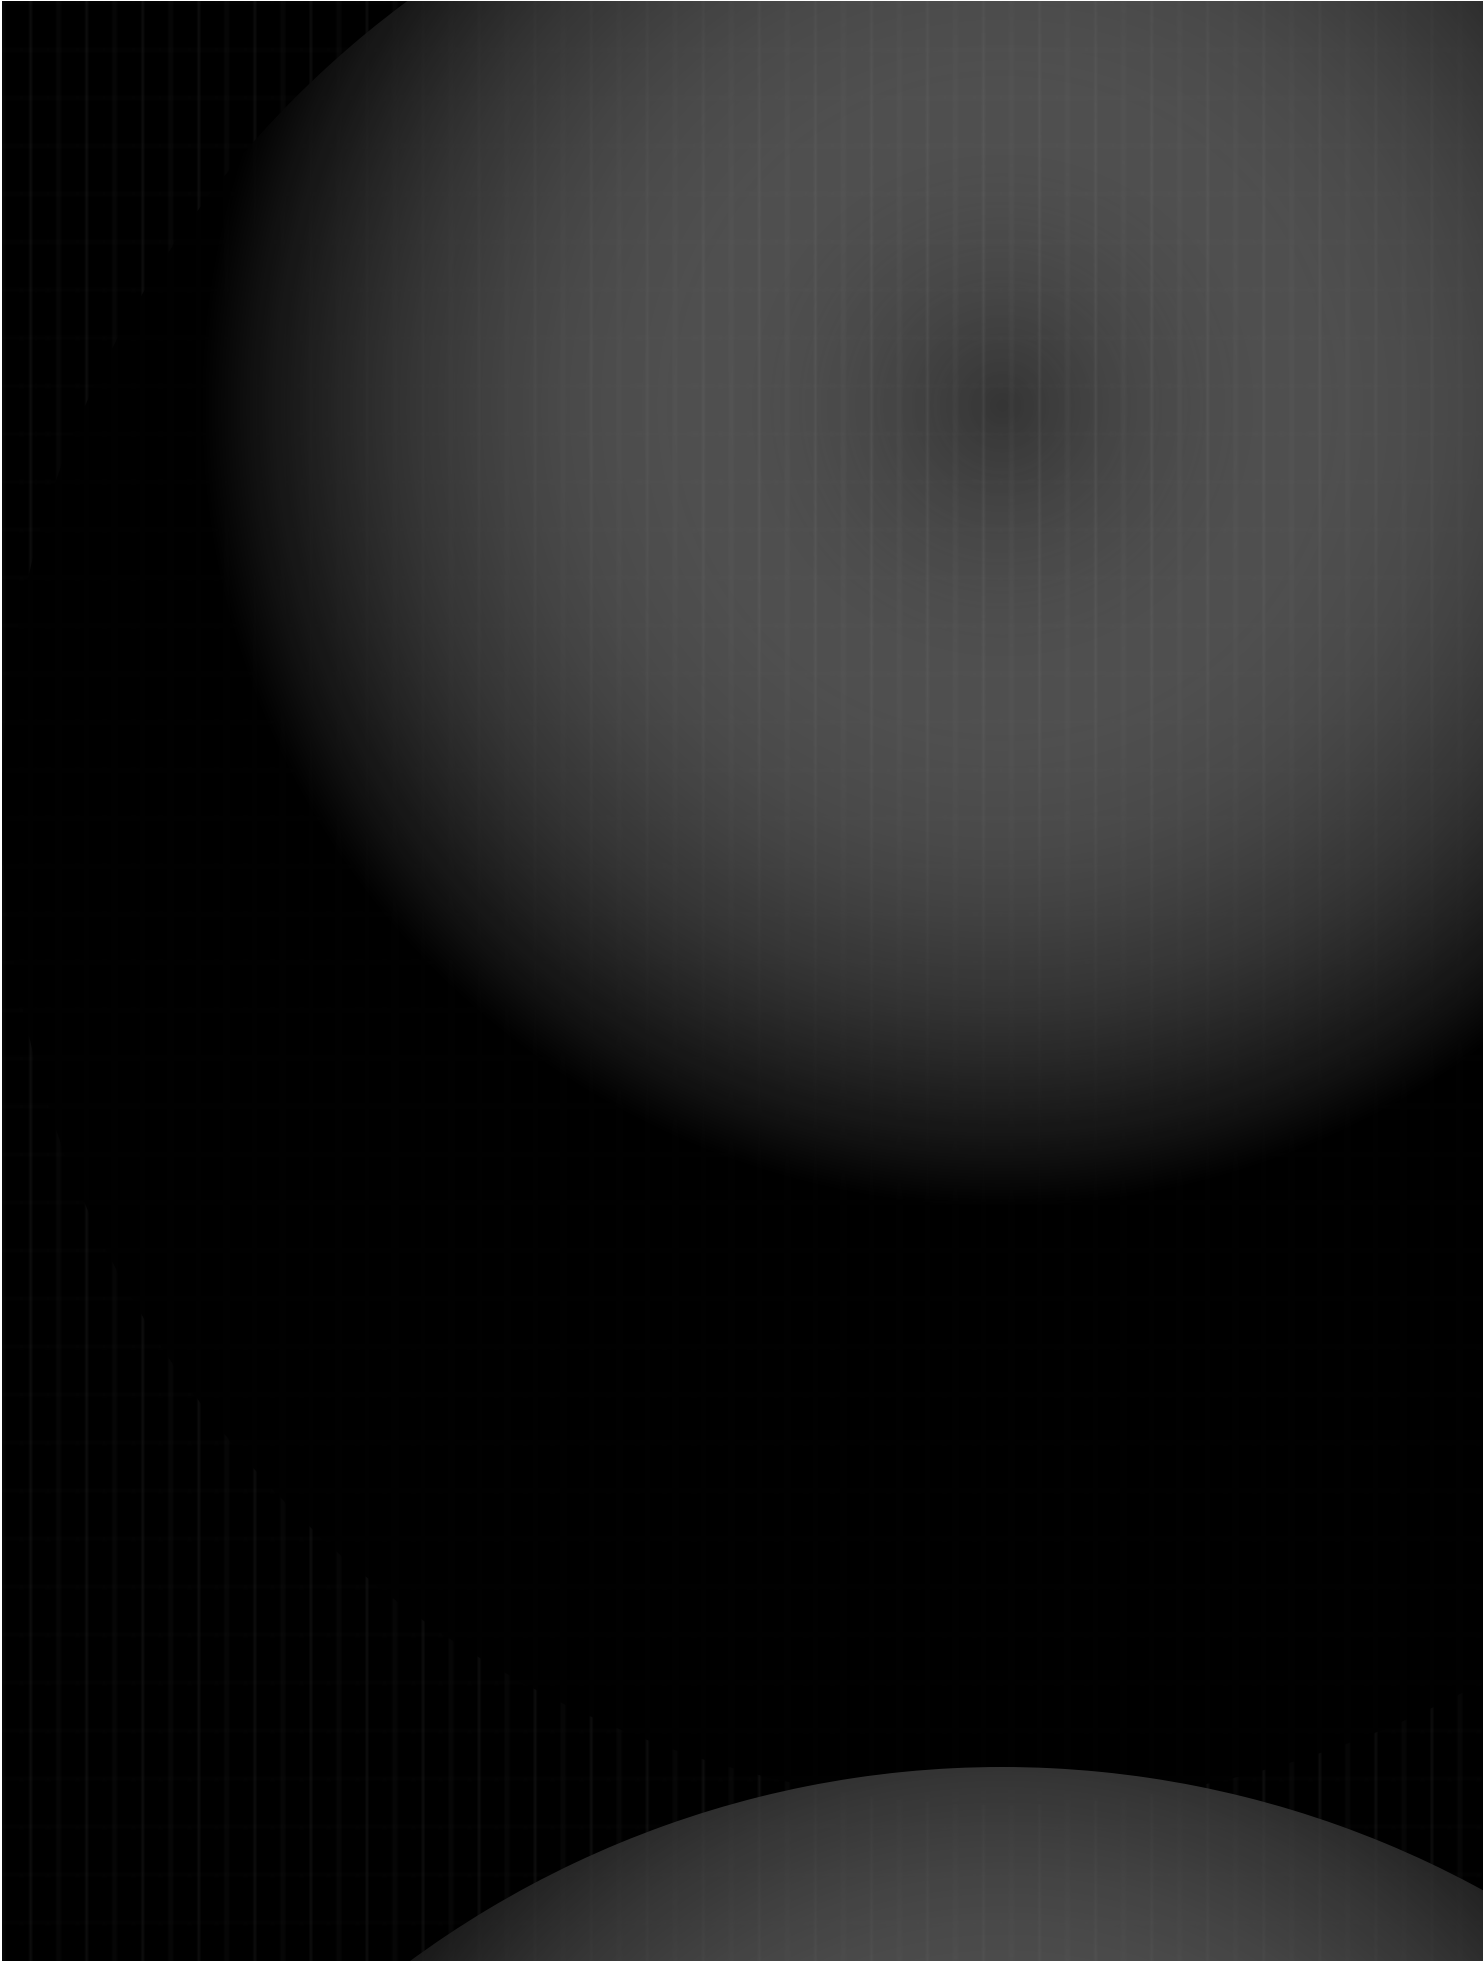

Front-end Developer

I'm a Frontend Developer passionate about crafting clean, responsive, and user-friendly web interfaces. With a strong foundation in HTML, CSS, JavaScript, and modern frameworks like React, I focus on building seamless digital experiences. I enjoy turning complex problems into elegant, accessible solutions through thoughtful design and efficient code. I thrive in collaborative environments and value writing maintainable, scalable code. Continuously learning and staying updated with the latest frontend trends is a key part of my workflow.
